HIGH SCHOOL JOURNEY

Next Term - Thursday, 6th June
We will keep you posted for further details.

Term 1, Week 8

Tuesday, 26th March, 2019

Reminder to all of talks on Childhood Development by Susan Laing next Monday.

Bravo to the Cast, Crew and Directors of the **Class 10 Drama Main Lesson**. Everyone loved your work.

Well done to everyone who participated in **Ride2School** last Friday and thanks to the P&F for supplying a yummy breakfast!

CYBERSAFETY

The school is acutely aware of the need to educate students as to the risks and appropriate uses of social media and the internet. Once again throughout the year, the school will host an expert in this field as a way of supporting our young people. An example of the schedule is below and talks to Class 10, 6 and 7 students will be added in Term 2. (The school urges no access to Social Media for Primary students however it is also aware of an obligation to educate students about safe use.)

| Class 8 | Class 9 |
|------------------------------------|--|
| Mon, 12:20pm-1:10pm (1st April) | Thurs, 10:40am-11:30am (28th March) |
| Mon, 1:50pm-3:10pm (1st April) | Thurs 11:30am-12:30pm (28th March) |
| Thurs, 10:40am-11:30am (4th April) | Fri, 10:40am-11:30am (5 th April) |
| Fri, 11:30am-12:20pm (5th April) | |

Class 11/12

Tues, 10:40am-11:30am (26th March) Tues, 11:30am-12:20pm (26th March)

Parents are also urged to seek information and build some muscle in this area. The school has in the past hosted talks for parents and will continue to do so however there is information everywhere on how best to manage screen time. It is a hot button issue for the government and our society.

Some strategies include:

- · Having screens only in communal areas
- Putting screens out of reach overnight
- Having parental controls on devices
- Using your authority and withstanding the desperate cries of anguish when you say "no" or "less",
- Being worthy of imitation and not hypocritical around this issue by always being on screens
- Finally and importantly, being open and accessible to conversations with your child about what's happening on screen (even if you want to embrace the foetal position and hide from what is repugnant to you when discussing social media and the internet).

This is not a comprehensive list. None of these strategies are perfect, none of them foolproof. Nevertheless:

"Everybody has to start somewhere. You have your whole future ahead of you.

Perfection doesn't happen right away."

Haruki Murakami (awesome Japanese author).

IN THE LIGHT OF A CHILD

Though much is changing, I stand strong
And in the darkness, shine.
For sleep, the plants and creatures long
But I have work divine.
For sun-seeds golden I'll be sowing,
Warmly from my heart's depth's glowing,
Into winter's icy flowing.

EARLY CHILDHOOD

FROM THE COORDINATOR

Rainbow Room children are so engaged in their imaginative play. I walked by a group today who called out "How do you like our camp?" They had set up a fireplace, stumps as seats, one wheelbarrow of water "for hand washing" another one "to put the fire out" and a number of inventive barbecues, complete with pine needle sausages. No doubt the play would have transformed it totally over the next minutes- it may have become a fishing boat or a hospital! Cooperative play is such a joy to behold, and teachers help the children to regulate their energies - for instance, waiting for their turn on the swing we see a lovely egg timer being used.

Jennifer Byrne - Early Childhood Coordinator

Perth Waldorf School is pleased to present:

Parent talks on Childhood Development with Susan Laing.

Understanding child development in the early years.

Monday, 1st April, 9:00am to 10:30am, Seekers Place.

Development in children is not incremental. It happens in bursts, with steps forward and steps backward, with quiet, easy times, but also with boastful, vigorous and other challenging times, that can bamboozle the parent brain! However, there <u>are</u> patterns in this development which reveal there is an order in this unpredictability. These patterns can guide us in how to support our children in the ways they need. This talk will introduce you to this source of help.

Meeting the challenges in nurturing young children.

Monday, 1st April, 6:30pm to 8:00pm, Seekers Place.

Parenting was never easy but this stressful, technological world is creating new challenges in how to provide an environment for the healthy development of young children. Commercialism and misinformed peer pressure, however well meaning, may influence our decisions unless we use our understanding of how young children develop and their basic needs as the foundation for our parenting. Being well informed makes it easier to stand firm courageously in our strategies and decisions to provide them with the healthiest start to life we can manage. This talk explores these challenges.

PRIMARY SCHOOL

FROM THE COORDINATOR

Primary school children and social media

Pages 18-20 of the parent handbook sets out the school's view on media. We ask that you as parents support our teaching here at the Perth Waldorf School by consciously being aware of these guidelines and the reasoning behind them.

We purposefully don't use any form of media in primary school and yet are faced with having to monitor inappropriate play and talk in the playground and class when children act out television and film scenarios and become characters from media programmes or games played on hand held devises.

Primary school children should not be on Facebook, Instagram, Snapchat, etc or have access to social media devices. They should be exploring their world and learning their place in it without being bombarded by images, information of the media manipulated world and messages completely out of context. Let them breathe in real time without the speed of instant messaging or a television programs warped sense of emotion and time.

- Facebook requires everyone to be at least **13 years old** before they can create an account (in some jurisdictions, this age limit may be higher). Creating an account with false info is a violation of our terms. This includes accounts registered on the behalf of someone under **13**.
- Group chats on Instagram or Whatsapp is unmonitored and a platform for social disharmony and misunderstanding so easily.

We will be reviewing our school policy but we can only do this together if we are all supporting this for the good of our children.

Lisa Payne - Primary School Coordinator.

CLASS 7 KULBARDI

Strings Attached!

Once every two weeks the students in Class 7 Kulbardi get together with their 'buddies' in Class 1 for stories and activities. Last time it was string games - making imaginative objects from string such as Cat's Cradle, Eiffel Tower and the classic 'cup and saucer'. The class 1's enjoyed learning new skills from the old masters, testing their growing coordination and dexterity. For the Class 7s it was a trip down memory lane, many excitedly remembering the forms they had learned with Yvonne when they were in Class 1.

And it didn't end there. Lunchtimes around the Class 7 room resembled a weaver's workshop. String patterns were tried, tested and taught, or *taut* as the case may be. So much so that their teacher had to threaten to confiscate them as they began to take over the classroom. After some failed attempts to find engaging activities for Year 7s to do at lunchtimes, it was quite a revelation to see them completely absorbed in conversation, imagination and string.

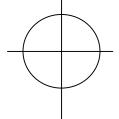

Kevin Mazzer - Class 7 Kulbardi Teacher

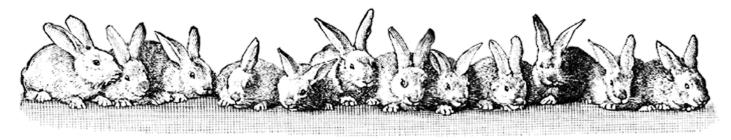

EASTER CROSSES DUE NEXT WEEK!

Easter is coming and so is Little Donkey! So we need our basic Easter crosses ready for decoration next week, **Monday, 1**st **April**. For our new students a basic cross needs to be made using the pattern below and returned to school by this date.

The Cross is to be constructed using dowel approx. 12mm in diameter; the vertical piece is to be 72cm long and the horizontal piece 45cm long. The dowel should "cross" 22cm from the top of the vertical and be wrapped with wool or wire to stay together. Take some thick wire and make a circle around the cross with a 20cm radius from the crossover section. To make it easier to attach the Easter Roosters, attach a long nail to the top of the cross.

ALL Crosses are to be brought to school by Monday, 1st April, 2019.

Meet our new Educators at Connect After School

Hi, my name is **Becca**. I'm originally from the UK but I have been living in Perth for 6 years now and recently graduated with a Bachelor's Degree in Early Childhood and Primary Teaching. My interests include keeping fit, playing with my dog and cooking/eating delicious food. I love to read books with the children, as well as taking part in craft activities and playing in the home corner. During my degree and in previous settings, I have never seen such a unique and beautiful service that is so committed to delivering a program and environment that is in line with a school's philosophy. I am very excited to be part of the Connect family at PWS.

(Continued over next page...)

^{*}The service is only available to Primary aged children.*

Hi, my name is **Akane**. I am originally from Japan however I have lived in Perth for 12 years. I love crafting, gardening, cooking and crocheting. I am enjoying teaching the children at Connect the art of Origami and we have had so much fun making Sushi as part of our weekly menu. I love the environment at PWS, and I am very excited to be part of such a beautiful service, team and community!

If you would like to book a place at Connect please contact us today at info@connectlearningwa.com.au

HIGH SCHOOL

CLASS 12 PROJECTS

As the term progresses the Class 12 Projects begin to take form and with that the students begin to increasingly connect to the process. There is also a realisation of what the Project means in real terms and this realisation certainly is a double edged sword for it brings a confidence and also an increased generation of will to birth a topic, but it also brings a sensing of the entirety of the process and what whole picture requires to bring it into the world. Already some students are feeling into and visualising what it will be like to present their research, experiences and reflections on the stage for their Presentations at the end of October!

This week sees the first serious deadline in the Project year - the first 1000 words of their essay or report. This written piece of work requires correct in text referencing and a reference page and so as I write this piece they will no doubt be grappling with the APA system of referencing. Do spare them a thought!

We have some really great topics to look forward to this year ranging from Steiner's philosophy on education, to fish farming, the health of our rivers, the role of money in society, addiction, discrimination, music therapy, the loss of childhood, and extinction of animal species.

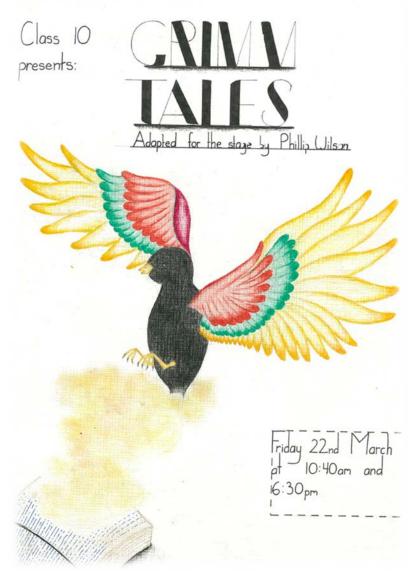

Thank you to the Class 12s of 2019. You are a joy to work with. Thank you to Kelly Geyer and Sharon Symes for your invaluable assistance in working with our students, to Class 12 Guardians Kelly Kranz-Little and Karen Peradon and to all of the PWS staff members who have taken on a Supervising role. Thank you also to the English Department and its teachers for their support with the upcoming deadline. The Project creates a fair amount of work for many staff, it really is a community of staff endeavour and the Project certainly would not be the success is it without them all.

Above are some Class 12 students enjoying studying the essay and report marking rubric!

CLASS 10A POSTER ART

This poster for last week's Class 10A Drama presentation was incorrectly credited. Thank you to Monique Finlay for her art work and poster.

A Journey of Becoming - Module One

An amazing opportunity as **Dr. Lakshmi Prasanna** and Curative Eurythmist **Patries Orange** join forces

Teacher Professional Development with Lakshmi and Patries is just extraordinary! They have developed a progressive format for teacher training through regular intensives that meets the need of the working professional.

Having now completed 3 modules of TPD over 18 months, I can genuinely say it is 'whole person' training for body, soul and spirit - each intensive is rich with conscious movement, intimate experiences of self, sharing through group work, creativity, and practicing clear thinking - that altogether manifests itself miraculously into awe-inspiring presentations and performances!

Over time I have noticed an increased strength of 'will' to persevere through challenges, to bring more warmth to my personal and professional relationships and to make decisions in an accurate and succinct manner. All our fires burn brightly after each Module with these trainers.

Every educator, parent, health professional...human being, needs to dive for this opportunity for inner path work and joy!

Biography Work

MODULE 2: FREEDOM OR FATE

The personal chart can become a precious lifetime possession. By yearly updating we can sustain our awakening recognition of destiny in motion. Through this inner process we gain a more mature, tolerant and compassionate in-look on destiny, both ours and others.

(Bryant, W. A. A Journey through Time, 2006).

Biography Work through Destiny Learning allows a way to look at life patterns, rhythms, mirroring, destiny moments in a holistic way using the chart as the guide that expands and deepens over time. Deep listening, helping conversations, writing and gesture work will provide ways to be heard and to listen and share our becoming human.
